All student participants must be enrolled in, and within the age range of the participating school. **Lessons are for students only and are not for accompanying parents or siblings.** For the safety of the students and our instructors all parents, teachers and chaperones are to stay at the bottom of the hill below the loading zones of the lifts.

BVSC requires that all participants accessing lift and/or hills using a School Program Ticket (including chaperones) must wear a helmet. Helmet rentals are available through Squire Johns.

At the beginning of the ski or snowboard day, to ensure safety and enjoyment, all students will be evaluated on their basic skills. A ski/snowboard evaluation (ski off), located on the Matt's Meadow learning area is made up of pylons, and tests a student's ability to turn in both directions and stop safely. Students must be able to demonstrate a minimum level of competency before attaining access to the hill. Students who demonstrate the ability to access the lifts will receive a 1-2 run assessment and safety clinic before setting out on their own. A formal lesson will be offered in the afternoon for these students. Students who remain on the Magic Carpet will receive instruction for the entire morning.

A more complete School Group Package, including registration instructions, will be sent out once your ski date is confirmed.

We look forward to hosting you at Beaver Valley Ski Club!
